I'm Scott Rappoport, the founder of  
The Coalition of Independent Voters  
(CIV) and Make Our GOVERNMENT  
Work Again (MOGWA)!

**Congress is split.  
The parties are split.**

**How about we INVERT this? UNITE around the center, and CLEAVE the fringe participants.**

**Support Bipartisan Members of Congress and New Centrist INDEPENDENT Candidates!**

## What We Are About

CIV seeks to give a voice in politics to over 50% of Americans who are Independents. Its members vote for people and policies, not parties.

- ✓ They value Merit Over Money.
- ✓ They value Country Over Party.

**We seek problem-solvers and team-players to advance policies that require action.**

## Ordinary People Doing the Extraordinary

CIV, or The Coalition of Independent Voters, seeks to elect individually minded people to serve in all levels of government. Our goal is to elect people to all levels government who are passionate about working together to solve problems and deliver results.

---

## The Ultimate Check & Balance

We want people who are passionate about bringing back the spirit of compromise that was once so common in our government. By looking outside for Independent candidates, we can have people who are not beholden to Big Money Interests, narrow Party Interests or Special Interests. The Ultimate Check and Balance on the two parties.

The Coalition of Independent Voters seeks to elect individually-minded people to serve in all levels of government. We are looking for that rare breed of person — actually common throughout the U.S.A. — who sees a problem and solves it. People of ability and accomplishment who also know what TEAMWORK is.

We are looking for these traits:

• Listener	• Personable	• Plain speaking
• Pragmatic	• Optimistic	• Problem-solver
• Intelligent	• Intelligent	• Results-oriented
• Tenacious	• Sense of humor	• Creative
• Courageous	• Humility	• Respectful
• Committed	• Team player	• Efficient

## Independents in Congress

The House of Representatives is almost evenly split between Democrats and Republicans. Worse, each party is split, with extreme views on each end of the political spectrum. Congress is dysfunctional.

**We just want it to work.**

**WHAT IF** we were able to vote in a core of 10-25 centrist Independents? People simply motivated to solve problems for the American People. People not beholden to party dictates or moneyed interests. People who think and act based on their best judgment.

If neither party had a majority, the **only way forward** would be to work together around the center. To make deals in a bipartisan manner. **To Compromise.** Fringe participants would no longer have the power to disrupt.

**Independents in Congress could be the trigger to free Congress from partisan gridlock.**

**There is still time in ~25 states to get Independents on the ballot this summer – but we must ACT.**

## On Contingent Elections

With a RFK Jr or another Independent who might appear, the chance of a Contingent Election is possible – one which goes to the House to be decided. If there are Independents who pledge not to vote for Biden or Trump, it could tip in favor of an Independent candidate.

**FUN FACT: With a Republican Senate, the Republican Vice Presidential Candidate could become the President if the House fails to act.**

# We Want to Make Our GOVERNMENT Work Again!!!

Simple. We want to usher in an Age of Accountability. The two parties are not listening to us and the choice they've given us for President is just the tip of the iceberg. It is time for us to hold them accountable.

---

## Draining The Swamp

We believe that voting out enough Republicans and Democrats and replacing them with Independents will do more to transform government than just about anything else. It shows them:

- They are vulnerable.
- We are fed up.
- That if they don't change, they'll be out of a job.

## Getting Money Out of Politics

Our candidates aren't beholden to money or a party. But there is another way to get money out of politics: To consistently vote for candidates who aren't on the payola of moneyed interests implicitly devalues big donations over the long term.

## Our Core Initiatives

We seek a more responsive government, one that is not entrenched. To this end, we want to elect people who will support 3 basic Constitutional Amendments:

- ✓ Codify number of Supreme Court justices to nine.
- ✓ Add term limits to federal representatives and senators.

We also want people at the State House level to:

- ✓ End gerrymandering of districts.
- ✓ Open primaries.
- ✓ Require voter ID.

## Our Policies

Drawing from the No Labels' Common Sense Majority policy booklet, we believe in strong, mostly right-of-center fiscal, defense, law enforcement, and border policies.

These policies are common sense and well formulated to put the interests of **country over party**.

## Who We Are

CIV and MOGWA are dedicated to reforming the government to make it work the way our Founding Fathers intended. We want to bring about REAL Change We ALL Can Believe In.

- Big moneyed interests OUT of elections.
- Teamwork, compromise, solutions, and results back IN.
- Grandstanding OUT.
- Competition and responsiveness IN.

This is going to take time and the efforts of all Americans to bring this about – we cannot rely on the politicians and the big party machines to affect this change.

It takes money to hire staff, support candidates, and communication this throughout the land. ***Won't you please consider making a small donation to help make this a reality?***

## Our Commitments to You

- ✓ We will spend all contributions judiciously and without waste.\*
- ✓ We will constantly endeavor to find and develop candidates who can deliver on our vision and core values.
- ✓ We will seek to develop policies that advance America for ALL Americans, regardless of party affiliation. Country Over Party.
- ✓ We will seek to wring excess from politics, so that decisions are made exclusively on merit.

\*In keeping with the spirit against waste, can you pass this on to someone else instead of throwing this away?
